We are reading entirely too much of what Japan will or will not do. The Metropolitan papers might forget Japan for a while to the satisfaction of all Americans.

The police force of Kansas City could do no wrong until a Star reporter was brutally mauled by some of its bullies. This act inspired a front page editorial in the Kansas City Star, which had heretofore refrained from mentioning previous brutalities on the part of policemen.

W. A. Hinesley returned to his home in Kansas City Tuesday, after a visit here with his brother, W. F. Hinesley.

Misses Bernice and Beradine Jenkins went to Kansas City Thursday evening for a few days' visit with relatives.

## A Great Remedy.

The merits of Chamberlain's Colic and Diarrhoea Remedy are well known and appreciated, but there is occasionally a man who had no acquaintance with them and should read the following by F. H. Dear, a hotel man at Dupuyer, Mont.: "Four years ago I used Chamberlain's Colic and Diarrhoea Remedy with such wonderful results that I have since recommended it to my friends."

## CANT DO THE WORK.

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbor recommends them. Ask your neighbor!

Mrs. Butler Talbott, 2107 Franklin Ave., Lexington, says: "Congestion of my kidneys and inflammation of my bladder have given me intense suffering. I had a dull, nagging backache and pains would shoot through my kidneys. I also suffered from lumbago and rheumatic pains in my back which made it hard for me to do my work. I doctored but got no real benefit until I used Doan's Kidney Pills which I got at Crenshaw & Young's Drug Store."

Mrs. Talbott gave the above statement December 4, 1911, and on March 12, 1920, she added: "I am just as strong as ever for Doan's Kidney Pills for they certainly cured me in good shape and I have had no trouble with my kidneys or back since."

60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Misses Gussie and Minnie Mehl and Miss Elizabeth Hamer spent Sunday in Concordia.

Mr. and Mrs. T. H. Taylor and two children returned Saturday evening from a week's visit with relatives in Melvern, Kan.

## A Traveling Man's Experience.

You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man."

City Marshal Seitz arrested Mike Santoris Sunday for driving car with "cut-out" open. In the police court Monday morning he was fined \$3.00 and costs.

## An Old Fault Finder.

An irritable and fault finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

## POINTER FOR MARRIED MEN

When You Don't Want to Hear Too Much From Wife, Put Blame on Poor Phone Service.

Roberts stopped in Delhart's office and asked what about a little round of golf.

"Just strikes me," Delhart assured him. "Wait until I phone the wife and we'll be off."

Delhart asked for his number and then, placing the phone on the edge of the desk, leaned back comfortably in his desk chair, receiver at ear.

"Hello, Martha, dear. Hello—Hello! This is Dick. Yes—Dick. Did you hear that all right? You did?"

Delhart moved around to a more difficult angle from the phone.

"I called up to tell you I am going out to play some golf with Roberts. What's that? You can't hear a word I say? I'm going out golfing with Roberts. Hear? You don't? I never saw such rotten service. Well, if you can't hear me I'll explain when I get home." And Delhart hung up.

Roberts couldn't keep from asking a question.

"Why on earth didn't you talk into the phone, old man? Then your wife could have heard what you said."

"Say, you are ignorant!" laughed Delhart. "I didn't want her to understand."—Kansas City Star.

## NO NEED TO ASK

Mr. Holmes—Did you ask the new nurse if she had any experience with children?

Mrs. Holmes—No, dear. I could tell by the way she glared at them that she had.

## SOUP ONLY FOR WEALTHY.

The strike among the makers of bird's nest soup at Hongkong will only affect the well-to-do classes, as birds' nests are their special preserve, remarks the London Morning Post.

Few callings are more dangerous than that of the men who collect the nests on the steep cliffs of the coast of Java. The nests are made of a kind of seaweed, quite soft and like pulp; its builder adds layers until she has built her nest large enough. The nests are tasteless, but the cook puts in so many spices that they are most palatable when they are served up. In Japan mock birds' nests are made of the same seaweed, which is beaten soft and boiled into a jelly.

## IMITATIONS OF MEAT.

Practically all of the imported dried beef comes from Uruguay. This is a product peculiar to that country and Argentina, large quantities of which are consumed by their own people.

All kinds of meat and meat food products are imported from Canada. Such products are shipped to this country by rail in the same manner as our own meats are shipped from one state to another. The quality of Canadian meats is good, and certain products in which that country specializes are in great demand.

## LITERARY SUSPICION.

"I regret," remarked Senator Sorghum, "that we should find ourselves living in so dense an atmosphere of suspicion."

"What has reminded you of the fact?"

"The morning's work. I chanced to see some exceptionally long and rather unusual words and the new stenographer stopped abruptly and exclaimed, 'What's the idea? Are you plugging for one of those dictionary publishing houses?'"

## DISLIKES ALIKE, ANYWAY.

"So you insist upon your engagement despite my dislike for that young man?" the mother asked coldly.

"Now, dear," the daughter soothed, "you and Harold should really be quite congenial, because your dislikes are so similar."

"Similar? Indeed!"

"Yes—you dislike him and he dislikes you just as much, you know."

—New York Sun.

## LITTLE IRONY OF HISTORY

Odd Fact That Enemies of Children of Israel Should Have Given Name to Palestine.

"By a strange turn of events the Philistines, those ancient enemies of the Children of Israel, have succeeded in giving their name to the whole of the country for 'Palestine,' as a historical geographer observes, is directly derived from 'Philistine,'" observes the Literary Digest. "The territory has never belonged to one nation, and probably never will," this writer, G. A. Smith, continues in his 'Historical Geography of the Holy Land' (London), written shortly before the war came to upset a number of preconceived notions along with territorial boundaries. Near the beginning of historic times it lay at the gate of Arabia and Egypt and at the tail end of a number of small states stretching up into Asia Minor. A period of Greek influence was followed by Roman conquest. After the success of the First crusade it was ruled for almost 100 years by European princes. In spite of these various waves of immigrants and conquerors 'the essential characteristics of the Jewish people persisted,' as a writer in the Encyclopedia Britannica points out, together with the idealism and high morality of their religion."

## THE CRIME WAVE

"What awful things you read of in the papers now, don't you? I simply haven't got out without Fido."—London Opinion.

## CANARIES AS WILD BIRDS.

The city of Norwich is famous for its canaries' song, beauty and hardiness, says the London Morning Post. They came to Norwich with the weavers of Flanders, banished from home by the Spaniards and ever since, the exiles' descendants, now mostly bootmakers, mustard millers and steel workers, have been canary lovers and fanciers; almost to a man.

In the pre-war days, there were known to be 4,000 canary breeders in the city, and the principal dealer informed the writer that 30,000 birds passed through his hands in a year. This high authority was firmly convinced that Norwich canaries were quite hardy enough to live as wild birds in this country, if they ever succeeded in making a fair start at looking after themselves. Wild canaries certainly would be a welcome addition to our diminishing songsters.

## NAPHTHA MADE TROUBLE.

A curious result of a railroad accident in which 8,000 gallons of naphtha were spilled, is reported from Roelofs, Pa. The oil ran into a pit and the odor was so penetrating that cattle died and one man succumbed. As time went on the inhabitants of the town were attacked by a sleeping sickness and everyone began to drowse. A number of residents moved out of town until the naphtha dried up.—Scientific American.

## PATENT JEWEL SMILE.

The United States patent office has issued a patent to Anderson Copie Solomon Robinson on a process of setting diamonds or other jewels in the mouth. The gems are set in metal which is shaped for being clamped upon a tooth or attached to a gold crown.

## NICE BOYS.

"Who says there are no altruistic people left?"

"What now?"

"School boys in a California town have chipped in to make good a deficit in their teacher's salary, and thus keep the school from closing."

—Louisville Courier-Journal.
